

Quest Engineering QS 350 - 2 way Speaker System

Based on the broad experience of Audio Engineers, DJ's and Musicians, the design team at Quest Engineering combined knowledge and practical solutions with the latest in manufacturing technology to create precise driver and design combinations that will deliver optimum results in both live and prerecorded music applications.

The QS Speaker System Range delivers exceptional bass response along with high frequencies that supply a balance of vocal intelligibility without instruments sounding harsh.

Quality Quest designed and manufactured components and horn flare optimise performance without the need for sophisticated processing electronics.

Permanent installation of the QS 350 is easy with the versatile pan/tilt bracket for vertical or horizontal installation. QS 350 HF horn can also be rotated 90 degrees for horizontal installation without HF compromise.

Professionals need reliability from their audio and Quest owners are protected by a 3 year international warranty.

Specifications

Type:	2-way bass reflex speaker system
Power Handling:	350 Watts RMS 700-Watts Peak
Nominal Impedance:	8 Ohms
Components:	1 Woofer 12" (300 mm) 1 Compression driver 1" exit
Angle of Coverage:	90 X 60 degrees
Frequency Response:	50~18K (-2dB) 40~20K (-7dB)
Sensitivity:	99 dB
Max SPL:	124 dB Nominal 126 Peak
Crossover:	Two way passive with protection
Protection:	Electronic over voltage on top end
Enclosure:	Injection moulded ABS
Connectors:	2 XLN4
Dimensions:	430 X 310 X 570mm
Packing Dimensions:	460 X 360 X 650mm
Net Weight:	18 Kg
Shipping Weight:	20 Kg
